# ■ Bangalore- An Educational hub for International Students

It is a matter of immense pride and satisfaction for us to note that the state of Karnataka hosts the largest number (more than 1/3rd of the total) of international students studying in India. Emergence of Bangalore as a hub for Science and Information Technology industries and consequent attention it draws globally, collective efforts on the part of universities and colleges to improve the quality standards of higher education in the state by going in for NAAC assessments and evaluations, especially during the last ten years, has also played a part in comparatively enhancing the reputation of institutions in Karnataka.

Activities of Hospitality Organisation for Overseas Students/International Students Hospitality Organisation, Bangalore, Federation of International Students Associations – Bangalore (F.I.S.A-B) and other voluntary organizations have further popularized Karnataka, and specially Bangalore, among foreign students. Besides having a salubrious climate, the 12.30 million plus strong Bangalore city with all modern amenities is one of the cheapest cities in the world and one of the only cities in India with diverse culture. According to Mercer's Cost of Living City Rankings 2018 for Expats, Bangalore is ranked at a lowly 170th position among more than 200 cities ranked, much lower than even the other Indian cities like Mumbai (55th) Delhi (103rd) and Chennai (144th).
